SURVEY METHOD & HISTORY

The original survey of Mineral Survey No. 1173 and Mineral Survey No. 1287 was conducted in August, 1921, and August, 1922, respectively, by the U. S. Department of the Interior, Public Survey Office.

This survey of MS 1453 and MS 1587 was conducted in June and July of 1987. The survey was performed using a total station and a laser level. The survey was conducted in accordance with the standards of the National Forest Management Act of 1966, as amended, and the standards of the National Forest Management Act of 1976, as amended.

The original survey of MS 1453 and MS 1587 was conducted in June and July of 1987. The survey was performed using a total station and a laser level. The survey was conducted in accordance with the standards of the National Forest Management Act of 1966, as amended, and the standards of the National Forest Management Act of 1976, as amended.

SURVEY LOCATION: MS 1087 and MS 1453 are located in Section 36 of T18S, R27E, C6R.M.
