

## **POSSIBLE MOTION**

**I MOVE TO** approve Resolution 2016-23 on  
first and final reading.

*Note: Emily Stolarcyk of the Eyak Preservation Council will give a 5 minute presentation prior to public testimony and Assembly discussion.*

CITY AND BOROUGH OF SITKA

RESOLUTION NO. 2016-23

**A RESOLUTION OF THE CITY AND BOROUGH OF SITKA OPPOSING SITING AND TIMING OF U.S. NAVY TRAINING EXERCISES THAT POSE RISKS TO FISH AND FISHERIES IN THE GULF OF ALASKA**

**WHEREAS**, the City and Borough of Sitka is the governing body with the full power and authority as recognized by the citizens of Sitka, to act for its members, and has responsibility to provide government for the good health and welfare of its citizens; and

**WHEREAS**, the U.S. Navy plans to conduct training activities utilizing explosives, live ordnance, and sonar in the Gulf of Alaska in 2017 that will have impacts on marine life and habitat vital to the interests of the City of Sitka and its citizens; and

**WHEREAS**, these trainings will impact the waters of the Gulf of Alaska by annually releasing up to approximately 352,000 pounds of expended materials including up to 10,500 pounds of hazardous materials including cyanide, chromium, lead, tungsten, nickel, cadmium, barium chromate, chlorides, phosphorus, titanium compounds, lead oxide, potassium perchlorate, lead chromate, ammonium perchlorate, fulminate of mercury, and lead azide into waters designated by NOAA as Essential Fish Habitat for a multitude of species that support the economic development in Alaskan coastal communities and harvest of wild Alaskan salmon and other fish for global markets; and

**WHEREAS**, the training area and vicinity is a highly productive region for many marine fish and shellfish populations and supports some of the most productive fisheries in the United States, and an important spawning area for many fishes, and the training is scheduled to take place during the summer season when many fish populations are migrating and spawning (at least 383 species belonging to 84 families of marine and anadromous fishes have been reported from the predominant ecosystems found in the training area); and

**WHEREAS**, the port of Sitka is reliant on the fish and wildlife resources in the Gulf of Alaska for their subsistence harvest and the livelihoods supported by commercial fishing; and

**WHEREAS**, the City and Borough of Sitka supports all cultural, traditional and subsistence activities historically and continually practiced by Native and non-Native peoples in the Gulf of Alaska; and

**WHEREAS**, the City and Borough of Sitka finds no scientific information or traditional knowledge demonstrating that the U.S. Navy's training activities can take place without negatively affecting salmon, marine mammal, bird and other marine habitats.

46 **NOW, THEREFORE BE IT RESOLVED** that the Assembly of the City and Borough of Sitka  
47 does hereby request that the U.S. Navy refrain from using live ordnance or sonar in any Marine  
48 Protected Area, including NOAA Fisheries Marine Protected Areas, State Marine Protected Areas  
49 and Habitat Areas of Particular Concern;

50  
51 **BE IT FURTHER RESOLVED** that the Assembly of the City and Borough of Sitka hereby  
52 requests that the U.S. Navy relocate its training area to the far southeast corner of the current  
53 designated training area, off the Continental Shelf areas of the Gulf of Alaska, and away from  
54 seamounts; and

55  
56 **BE IT FURTHER RESOLVED** that the Assembly of the City and Borough of Sitka requests the  
57 U.S. Navy to conduct its training exercises after the middle of September and before the Spring,  
58 so as not to impact migrating salmon and other species.

59  
60 **PASSED, APPROVED, AND ADOPTED** by the Assembly of the City and Borough of Sitka,  
61 Alaska, on this 8<sup>th</sup> day of November, 2016.
