### Rental Use Information

The Planning Commission is seeking more information regarding the overall use of permitted short-term rental units to better understand the housing/lodging needs these units meet. The following questions are optional, but your participation is greatly appreciated.

13. Are you on-site when the unit is being used as a short-term rental?

*Mark only one oval.*

- Yes, I live on the property and am there when it is being rented short-term
- Yes, I monitor the property when it is being rented short-term
- No

14. What time of the year do you short-term rent (30 days or less) your unit?

Note: If you rent your unit to a business for employee housing for more than 30 days, this is considered a long-term rental (even if individual workers are there for 30 days or less). This type of rental use SHOULD NOT be included in your answers regarding use of your unit as a short-term rental.

*Mark only one oval.*

- Continuously throughout the year
- Intermittent periods throughout the year
- Summer season only (generally April - September)
- Winter season only (generally October - March)

15. How do you use your unit when it is not being used as a short-term rental? Check all that apply.

*Check all that apply.*

- Personal use/as your primary dwelling unit
- Housing for nonpaying family/friends (i.e. multi-generational living, "couch surfing", etc.)

16. How would you characterize the primary users of your short-term rental?

Note: "Itinerant Worker" is intended to capture those who visit Sitka on an infrequent or intermittent basis for work such as specialized repair services, a visiting researcher/artist, etc. A traveling worker who uses your unit under their employer's long-term rental agreement with you SHOULD NOT be included here as itinerant workers, as the overall use is considered a long-term rather than short-term rental.

*Mark only one oval.*

- Other business travelers (meetings, conferences, etc.)
