Subject: Pacific Learning Center Annual Review

Sam,

Here is a brief outline of the current operations of the PLC per your request:

The Pacific Learning Center, located at 205 Harbor Drive, has been meeting a desperate need to the parents and children in Sitka. As a result of our school opening, we have been able to successfully help many parents find the childcare that is so scarce in this small community.

Since the launch of our school, we have taken childcare a step further than the traditional "day care" centers. In addition to operating as a child care facility, we are also providing a thriving learning environment for our children. We utilize a nationally recognized specialty curriculum that incorporates hands-on learning, family involvement, and critical thinking skills, that help children to develop socially, emotionally, physically, and intellectually.

We are Alaska state licensed and inspected every six months for compliance. Our performance reviews show 100% compliance. The state laws that we comply with are more stringent than those imposed upon the public school system (which are not state inspected) and we are continually praised for what a wonderful learning center we have created.

Sincerely,
Emily Davis
PLC - Owner
