To Whom It May Concern:

Please permit S&S General Contractors to be allowed to reopen the quarry and remove the rock down to the level of the rest of the island.

At the time I purchased my two lots (13 & 14), I was informed that eventually they would level the rock pile. I had no objection because this meant foundation materials would be available. Some property owners have been lucky enough to use the loose rock for foundations for their homes/ cabins.

Now there is no more loose rock. This is a big problem for me because I have only now completed the plans for my home. Unless you permit the removal of the rock, neither I nor anyone else who wishes to build will have access to rock foundation material.

Respectfully,

Janet Leekley Eddy

Subject: S&S General Contractors Kasiana Island Proposal

Hi Melissa – could you please forward me a copy of the plans filed by S&S Contractors for Kasiana Island? My interests include marine values, bird populations and visual quality of their proposed quarry.

Thanks

Ray Carrier

To Whom It May Concern,

I Pat Parrish (owner of Lot #14 on Kasiana Island) support the conditional use permit request, filed by Timothy Eddy and Roger Sudnikovich for the commercial quarrying activities on their lots on Kasiana. Further more I am thankful that there is a quarry out there because the rock out of the quarry was used to build roads and develop lots on the island.

Thank you for your time.

Pat Parrish
