BACKGROUND/PROJECT DESCRIPTION

The request is for a conditional use permit for short-term rental (STR) for one unit within a duplex at 1311 Edgumbe Drive. The unit to be used for short-term rentals is an 864 sf dwelling unit with 2 bedroom and 1 bathroom. The upstairs unit is owner occupied. The applicants are the son and daughter-in-law of the owner and will serve as property managers for the rental and live nearby to respond to any concerns. The property sits on a 17,610 sq. ft. lot with parking for at least four vehicles. The approximately 70' setback from the right-of-way and surrounding trees will serve as buffers to surrounding neighbors.

ANALYSIS

1. CRITERIA TO BE USED IN DETERMINING THE IMPACT OF CONDITIONAL USES.¹

a. Amount of vehicular traffic to be generated and impacts of the traffic on nearby land uses:

Applicant does not anticipate significant increase in vehicular traffic nor impact from proposed use as there is parking on-site, meeting the Sitka General Code requirement to afford space for two vehicles per dwelling unit. Home is accessed on Edgumbe Drive.

b. Amount of noise to be generated and its impacts on surrounding land use: Short-term rentals have the potential to create noise from transient guests, however applicants live close by and can enforce quiet hours.

c. Odors to be generated by the use and their impacts: Potential odor impacts are minimal and in line with similar residential uses. Garbage shall be disposed of in municipal containers and in accordance with Sitka General Code requirements.

d. Hours of operation: Available year-round.

e. Location along a major or collector street: Accessed from a residential street.

f. Potential for users or clients to access the site through residential areas or substandard street creating a cut-through traffic scenario: No cut-through routes are present.

g. Effects on vehicular and pedestrian safety: No significant changes expected, minimal traffic with one or two cars utilized for the rental.

¹ § 22.24.010.E

h. Ability of the police, fire, and EMS personnel to respond to emergency calls on the site:

Residence has reasonable access from Edgecumbe Drive. Applicant does not anticipate a change from the current ability of emergency services personnel to access the site.

i. Logic of the internal traffic layout: The rental unit is the first floor of duplex. The structure contains a kitchen, living/dining space, 2 bedrooms and 1 bathroom.

j. Effects of signage on nearby uses: No signage proposed. All signs shall comply with Sitka General Code.

k. Presence of existing or proposed buffers on the site or immediately adjacent the site: House is set approximately 70 feet back from the front property line, ample vegetation present, and bordered on two sides by rights-of-way at the intersection of Edgecumbe Drive and Mills Street.

l. Relationship if the proposed conditional use is in a specific location to the goals, policies, and objectives of the comprehensive plan: An STR can help support the existing and growing tourism industry by providing transient guests with short-term housing options that allow the potential for more visitors to visit Sitka, bringing in money and creating opportunities for job creation and economic development. STRs also increase the affordability of housing for owners by offsetting housing costs with rental income. However, STRs correlate with negative impacts to available housing stock for residents, long-term rental rates, and increased purchase prices for housing.

m. Other criteria that surface through public comments or planning commission review: None at this time.
