BACKGROUND/PROJECT DESCRIPTION

This is the applicant’s primary dwelling unit; they plan to use their apartment or will be on vacation when rented.

ANALYSIS

1. CRITERIA TO BE USED IN DETERMINING THE IMPACT OF CONDITIONAL USES.¹

a. Amount of vehicular traffic to be generated and impacts of the traffic on nearby land uses:

Applicant does not anticipate significant increase in vehicular traffic versus long-term residential use. They have included a note in the renter handout to drive slowly and watch out for kids.

b. Amount of noise to be generated and its impacts on surrounding land use: Short-term rentals have the potential to create noise from transient guests. Renter information will also include house rules. Quiet hours are listed in the house rules between 10 PM and 6 AM.

c. Odors to be generated by the use and their impacts: Potential odor impacts are in line with similar residential uses.

d. Hours of operation: Short-term rental will be utilized May 1 – Sept 30, full day operations.

e. Location along a major or collector street: Collector Street is Sand Dollar Drive.

f. Potential for users or clients to access the site through residential areas or substandard street creating a cut-through traffic scenario: None

g. Effects on vehicular and pedestrian safety: Possible added traffic (particularly by those unfamiliar with the neighborhood) can impact street safety.

h. Ability of the police, fire, and EMS personnel to respond to emergency calls on the site: No anticipated change from the current ability of emergency services personnel to access the site.

i. Logic of the internal traffic layout: Parking is limited to 1 car. Parking is adequate with space for 6 vehicles.

j. Effects of signage on nearby uses: No signage proposed. All signs shall comply with Sitka General Code.

¹ § 22.24.010.E

k. Presence of existing or proposed buffers on the site or immediately adjacent the site:

Property is surrounded by buffers on all sides. Garden beds and fence on south side, rock wall and tree fence on north side, downward sloping hill on west backside, Sand Dollar Dr. (driveway) on front east side.

l. Relationship if the proposed conditional use is in a specific location to the goals, policies, and objectives of the comprehensive plan:

A STR can help support the existing and growing tourism industry by providing transient guests with short-term housing options that allow the potential for more visitors to visit Sitka, bringing in money and creating opportunities for job creation and economic development. STRs also increase the affordability of housing for owners by offsetting housing costs with rental income. However, STRs correlate with negative impacts to available housing stock for residents, long-term rental rates, and increased purchase prices for housing.

m. Other criteria that surface through public comments or planning commission review:

None.
