**Subject:** Planning Commission Meeting 5/10

Agenda Item "J"

I find it a bit curious that the 4/12 meeting notice listed a Conditional Use Permit for proposed activities on land adjacent to my property as "a quarry."

The meeting agenda for 5/10 specifies the same land is requesting a Special Use Permit for "natural resource extraction and mining support facilities."

There seems to be some ambiguity in proposed activity(s) for that land. I am opposed to either currently specified proposal.

I expect to attend the Commission meeting 5/10 and offer testimony.
