RECOMMENDATION

BACKGROUND/PROJECT DESCRIPTION

The following request is for a conditional use permit for short-term rental (STR) within a single family home. The unit is approximately 1,100 sf with a kitchen, living/dining room, 1 bedroom, 1 bathroom, and a 2 car garage.

Property is a large lot directly served from the highway. The house is set over 100 feet back from the front property line, there is vegetation behind the home to serve as a substantial buffer from rear properties, and is across the street from a recreational area.

ANALYSIS

1. CRITERIA TO BE USED IN DETERMINING THE IMPACT OF CONDITIONAL USES.¹

a. Amount of vehicular traffic to be generated and impacts of the traffic on nearby land uses:

Applicant does not anticipate significant increase in vehicular traffic nor impact from proposed use as there is parking on-site, meeting the Sitka General Code requirement to afford space for two vehicles per dwelling unit. Home is accessed directly from Halibut Point Road.

b. Amount of noise to be generated and its impacts on surrounding land use: Short term rentals have the potential to create noise from transient guests, however the property owners live in town and will be available to monitor disturbances.

c. Odors to be generated by the use and their impacts: Potential odor impacts are minimal and in line with similar residential uses. Garbage shall be disposed of in a municipal container and in accordance with Sitka General Code requirements.

d. Hours of operation: Available year round.

e. Location along a major or collector street: Accessed from a state-maintained highway.

f. Potential for users or clients to access the site through residential areas or substandard street creating a cut-through traffic scenario: Home can only be accessed from Halibut Point Road. No other cut-through routes are present.

g. Effects on vehicular and pedestrian safety: No significant changes expected, minimal traffic with one or two cars utilized for the rental.

¹ § 22.24.010.E

h. Ability of the police, fire, and EMS personnel to respond to emergency calls on the site:

Residence has reasonable access from Halibut Point Road. Applicant does not anticipate a change from the current ability of emergency services personnel to access the site.

i. Logic of the internal traffic layout: The rental unit is a dwelling unit on the second level above a garage. The structure contains a kitchen, living/dining space, 1 bedroom and 1 bathroom.

j. Effects of signage on nearby uses: No signage proposed. All signs shall comply with Sitka General Code.

k. Presence of existing or proposed buffers on the site or immediately adjacent the site: House is set over 100 feet back from the front property line, ample vegetation on rear and sides of the structure is present, highway frontage, across the street from a recreation area.

l. Relationship if the proposed conditional use is in a specific location to the goals, policies, and objectives of the comprehensive plan: An STR can help support the existing and growing tourism industry by providing transient guests with short-term housing options that allow the potential for more visitors to visit Sitka, bringing in money and creating opportunities for job creation and economic development. STRs also increase the affordability of housing for owners by offsetting housing costs with rental income. However, STRs correlate with negative impacts to available housing stock for residents, long-term rental rates, and increased purchase prices for housing.

m. Other criteria that surface through public comments or planning commission review: None at this time.

RECOMMENDATION

The Planning Department recommends that the Planning Commission approve the conditional use permit application for a short-term rental at 2160 Halibut Point Road subject to the recommended conditions of approval.
